## **Datapulse Technology Reports Higher Profit of \$6.2 Million for 1Q FY2017**

**Singapore, 8 December 2016** – Mainboard listed Datapulse Technology Limited, a leading total solution provider of CD, DVD and Blu Ray Discs services in the Asia Pacific region, reported its first quarter results for the financial year 2017.

For 1Q FY2017, the Group registered a 54.7% drop in revenue as compared to 1Q FY2016 from \$12.5 million to \$5.7 million. The decrease in revenue was a result of weaker demand for media storage products and services during the quarter.

Total operating expenses decreased by 41.2% from \$8.7 million in 1Q FY2016 to \$5.1 million in 1Q FY2017. The decrease in cost of raw materials usage was in tandem with the lower revenue during 1Q FY2017. Depreciation was lower due to more assets becoming fully depreciated and there were minimal property, plant and equipment investments. The reduction in staff costs by 18.8% from \$2.7 million to \$2.2 million and other operating expenses by 60.5% from \$2.0 million to \$0.8 million were mainly attributed to lower business activities and cost management measures undertaken by the management of the Group.

The Company did not recognize any income tax expense despite registering pre-tax profit of \$0.6 million as it currently has sufficient tax allowances to offset its taxable income for 1Q FY2017.

Profit from discontinued operations relating to One Global Inc. (“OGI”) arose due to recognition of gain on disposal of subsidiary of \$5.5 million in 1Q FY2017 upon completion of the disposal of OGI during the quarter.

As a result of the above, the Group’s net profit increased by 59.7% from \$3.9 million in 1Q FY2016 to \$6.2 million in 1Q FY2017.

For 1Q FY2017 and 1Q FY2016, earnings per share of the Group were 2.82 cents and 1.76 cents, respectively.

The Group’s financial position remained healthy with strong cash position of \$38.2 million as at 31 October 2016 and it continued to generate positive operating cash flows of \$0.4 million during 1Q FY2017.

On 7 July 2016, the Group entered into a share sale and purchase agreement to dispose of its entire shareholding in OGI for a consideration of TWD 144.5 million (equivalent to \$6.1 million). Consequently, the assets and liabilities of OGI had been reclassified to assets held for sale and liabilities held for sale in the Group's statement of financial position as at 31 July 2016. The disposal was completed on 19 August 2016 and the Group received proceeds from discontinued operations, net of cash disposed amounting to \$5.8 million during the quarter.

Associate at the Group level of \$2.9 million comprised mainly a long term shareholders' loan extended to a 20% owned associate, Goldprime Realty Pte Ltd ("Goldprime"), for a property development project in Australia. The investment in associate and the shareholders' loan had been reclassified to assets held for sale in the Group's statement of financial position as at 31 October 2016 as the Group has the intention to dispose of its interest in Goldprime within the next 12 months. On 2 December 2016, the Group entered into a share sale and purchase agreement to dispose of its 20% interest in Goldprime for a consideration of \$35,000.

The outlook for the Singapore manufacturing sector remains weak, on the back of the global economic uncertainties. Operating environment in the media storage industry continues to be challenging due to weak market demand for media storage products and services.

The Group will continue to focus on increasing its revenue base through an expansion of its customer base and providing more value added services to its customers and managing its operating costs by improving yield and production efficiencies. It will also be keeping a close tab on the technological and business developments within the media storage industry and explore other investment and business opportunities.

At the same time, the Group will actively re-define its business strategies, and continue to explore measures to optimize utilisation of its resources efficiently.

### **About Datapulse Technology Limited**
